Dear Ken

Re: My experience of using the Benchmarks Process

Just a few words of sincere thanks to you, for everything you have done to ensure that my recent appraisal went extremely well.

Of particular importance, has been your clear objective thinking and ability to synthesise the very comprehensive results obtained through Benchmarks survey. Also, I have enjoyed and felt supported by your professional encouragement and good insights. Your efficient handling of the data, prompt delivery and excellent presentation skills to my College Council have likewise further augmented what is an impressive package.

The Benchmarks process is also one that I would have no hesitation in recommending to other prospective clients of the scheme, as it is in-depth, thought-provoking and designed to really assist the development of critical leadership skills. The relevance in the global as well as national market cannot be underestimated, and the results can therefore be seen to be valued in both a local and much more objective way.

I would say that having participated this scheme, I have developed better leadership skills and can focus clearly on what I need to do in both the short and long term as a leader.

I would be happy to speak to any person considering embarking on the Benchmarks process with you.

Thank you most sincerely for all your help in the process.

Yours sincerely

SUE HORNUM
Principal
